Subject: 2001 Monitoring

Hi Mary Kay, the breakdown of the \$34,000 for 2001 monitoring is:

Surface: \$8,500 - 4 days, Bill + Jim,

Piezometers: \$3,400 report, data int. + manipulation, meeting

In-Mine: \$21,100

9KT: \$1,100 - shows go thru data get from hydro + interpret no: post RT

Total = \$34,100

I suggest doing the Surface, the Piezos, and 9KT as an option if there is not enough budget for everything. This would total \$13,000.

Jim
